

FOLLOW SPOT CHAIRS

Thomas has simplified its range of lightweight follow spot chairs, that feature comfortable rally type seats and safety belts.

The chairs come in 2 standard formats as detailed below. All chairs are supplied with one vertical and one 45 degree angle adjustable spigot mounting adapters, which allow the use of most types of follow spots available today.

The follow spot chairs fit to the truss by means of 4 swivel couplers which are supplied as optional extras. Some models also feature a tray behind the seat for mounting of a ballast.

PRODUCT CODE	DESCRIPTION	WEIGHT lbs	LENGTH ins	WIDTH ins	HEIGHT ins
