

HORIZON Submaster Wing Panel

IPS-HZ-SWP

Standard HORIZON™ software provides “virtual” submasters, which are viewed on screen and accessed using the HORIZON mouse. The HORIZON Submaster Wing Panel replaces these “virtual” submasters with an external panel containing 24 linear potentiometers and 24 bump buttons. HORIZON supports an unlimited number of Submaster pages. Each Submaster and each Submaster page can be assigned an alpha-numeric name.

The HORIZON Submaster Wing Panel may be added to any standard HORIZON system. Simply plug it into the serial port of the computer.

- ◆ 24 Submaster sliders
- ◆ 24 Submaster bump buttons
- ◆ Unlimited number of submaster pages
- ◆ Connects to serial port of PC
