

Perfection . . . Guaranteed

All gelstrings are not alike. Ask anybody who's had one malfunction during a show. Fact is, the quality of the gel doesn't mean much if the gelstring isn't assembled right. And the problems can be costly - poorly assembled gelstrings are a major contributor to malfunctioning color changers.

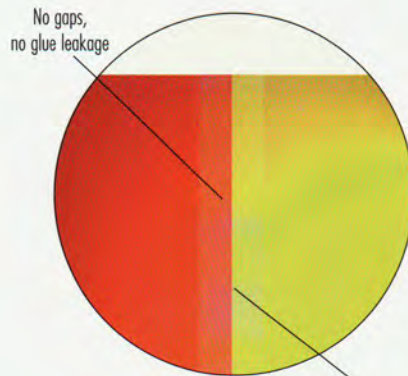

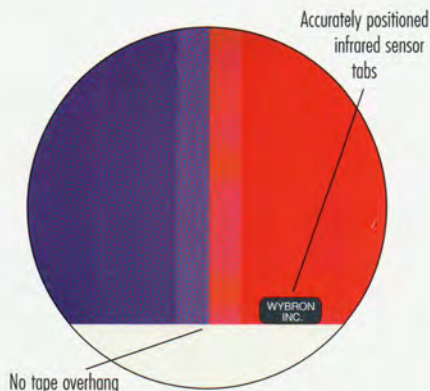

That's why at Wybron, we've taken great care to develop a gelstring that is always precisely square, accurately cut perfectly assembled. And *that* is why ColorExpress is the only gelstrings in the industry guaranteed perfect every single time.

To back that guarantee we have developed a custom-designed, semi-automatic assembly system that allows for the cleanest possible cuts, with parallel and perpendicular edges

“ColorExpress . . . precisely square, accurately cut, perfectly assembled.”

always in exact alignment. We performed extensive tests on tapes to find the one best suited to withstand the intense heat of entertainment lighting - no glue leakage and minimal stretch. And we developed special tabs for infrared sensor systems - always accurately positioned and guaranteed to never peel, slide or crack.

We make ColorExpress gelstrings to fit any size, make or model of color changer, and offer every color of the spectrum, from all the leading manufacturers. They're shipped on rigid tubes, which allows for easy loading into your color changer. And we file all orders in a database according to

1-inch tape (extensively tested) has minimal stretch returns to normal when cooled

client and performance, allowing for immediate retrieval of your order in a crunch, and for easy reference to your previous orders.

Overnight . . . Guaranteed

We understand your need for quick delivery on gelstrings. That's why ColorExpress is also the only gelstring with the option of a guaranteed 24-hour turnaround. All orders received by noon and designated for next day delivery will ship that same day. Guaranteed.

Guaranteed perfect and guaranteed delivery. That's a combination you won't find anywhere but Wybron.

“Gelstrings for every size, make and model of scrolling color changer.”
